

## **Responsible Visitor Charter**

We are proud to champion sustainability, and are committed to offering environmentally-friendly conferencing facilities.

Working in conjunction with the Green Business Tourism Scheme, we would like to encourage visitors to support us by conserving our natural assets and help us become a more sustainable destination.

This charter provides a simple guide for you to help us make a difference.

### **Consider Alternative Travel Options**

Think again before you use the car, and if you do need to why not consider car sharing. Manchester Met is easily accessible by public transport and bike stands are provided across the University if you wish to cycle here.

### **Conserve Energy**

Help us to reduce our energy consumption - switch off lights and close windows.

Turn off electrical equipment when not being used; try not to leave items on standby or adaptors plugged in but not connected.

### **Reduce, Reuse, Recycle**

Try not to print unless it's necessary and print double sided wherever possible.

Think about alternative ways to provide information for your delegates.

Return unused conference materials to the local organiser to recycle.

Please make use of the recycling points around the campus.

### **Be Water Wise**

Don't leave the tap running when you clean your teeth.

Please use guest towels more than once.

### **Shop Local**

Purchase local products to give you a flavour of the area and help support local communities.

### **Respect Nature and your Surroundings**

Help us to look after the landscape by not littering.

Please use designated cycle routes and footpaths.

Guard against fire, please safely dispose of any flammables.
